One Page Person Centered Description

One Page Person Centered Descriptions are deceptively simple, and in this simplicity lies their strength. They help us to support people better by:

- Helping us build better relationships by truly understanding what really matters to the person in their life and the way they are supported to live it
- Providing a record that can move with the person as they transition from service to service and place to place.
- When used at work, they can contribute to more person-centered teams, where individual strengths are recognized and different ways of working are taken into account
